

Sustainability at América Móvil is supervised by the Board of Directors and is one of the highest priorities for the Company.

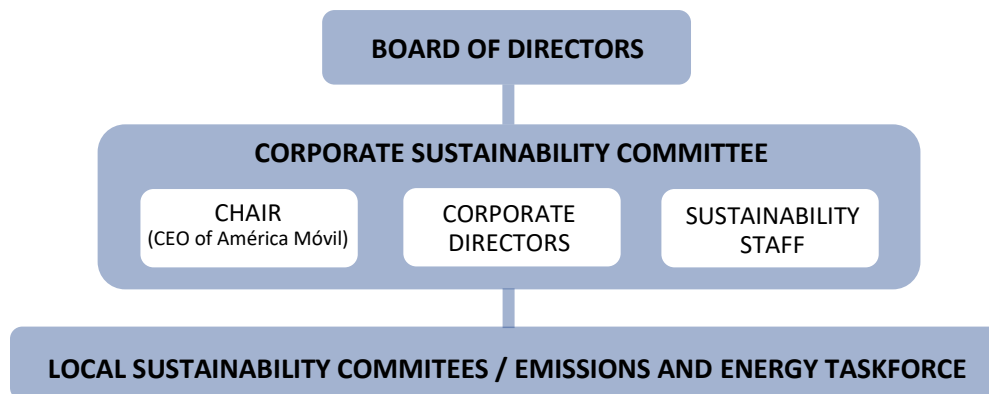

In 2018, the Board of Directors created the Corporate Sustainability Committee to establish and supervise the execution of the Company's Strategy to take the Company's sustainability performance to the next level.

Today, our Sustainability Committee is led by our CEO and involves all of the C-Suite. By incorporating sustainability into strategic decision-making in our daily operations, we are confident that we can maintain our leadership in the market.
